

T Dinamik Enerji

- T Dinamik Enerji, a subsidiary of Ak-taş Dış Ticaret A.Ş., was established in 2011 to invest in renewable energy sources.
- The company launched its **Energy Storage Unit** in 2019 and has also been operating as a solar systems supplier since 2021.

Ak-taş Dış Ticaret

- **Ak-taş Dış Ticaret A.Ş.** was established in 1989. It supplies various bulk and packaged petrochemical products from leading global manufacturers and distributes these raw materials to various industries in Turkey and neighboring countries.
- Ak-taş has been listed in the **Fortune 500** for five years, rising from 292nd place to **170th place.**
- In light of this success, it considers maintaining and further strengthening its position as one of Turkey's leading exporters in international markets, primarily in Europe, the Middle East, North Africa, CIS countries, and America, as one of its key objectives.

ak-taş

Ak-Taş carries out the storage and distribution of the chemical raw materials it supplies, primarily solvents, through its terminals in **İzmit/Kocaeli** and **Yumurtalık/Adana** in **Turkey**, as well as **Chalkida (AKFA)** in **Greece**.

The company also ensures the distribution of **packaged chemical products** from the **Ak-Taş Gebkim Storage and Production Facility** in **Kocaeli**.

BUSINESS AREAS

SPP Investments

Solar Product Supply

It made its first solar energy investments in **Greece in 2012**, followed by **Romania in 2013**, in partnership with local companies.

Since 2014, with the maturation of the solar energy market in Turkey, it has made a total of **120 MWp** of solar energy investments in the country.

Total of 130MW power plants in Turkey and Europe

Energy supply to multiple locations in Turkey and Europe

Emission balance equivalent to planting 1,755,000 trees in 25 years

Annual total energy production of 195,000 MWh

Production equivalent to the annual energy consumption of 123,000 households

PHONO

T Dinamik Enerji offers innovative solutions to the solar sector through global partnerships.

As a global leader in photovoltaic system technology, SMA sets today's standards, by offering **effective** and **efficient solutions** for **digital** and **renewable energy** supply. Its innovative solutions for all types of photovoltaic applications **create greater independence** for people and businesses worldwide in meeting their energy needs. For a **climate-friendly** and a **sustainable future**, SMA helps them transition to a self-sufficient, decentralized, and renewable energy supply.

KSTAR

Founded in 1993, KSTAR has become a **global leader in power electronics and solar energy**. Operating in **over 180 markets** with **more than 4,200 employees**, KSTAR offers a **wide range of products**, from residential and commercial rooftop systems to ground-mounted solutions. Known for its **high-quality and reliable solutions in uninterruptible power supplies (UPS)**, KSTAR has also formed a strategic partnership with CATL, the world leader in energy storage systems. This collaboration focuses on the design and production of innovative products such as **energy storage systems, battery packs, and charging stations**, and also provides home energy storage solutions with UPS-integrated lithium-ion battery packs. Through this partnership, KSTAR offers more **efficient and reliable energy solutions**, supporting sustainable energy use.

SolaX Power, founded in 2012, is a **global leader in solar energy storage solutions**. Headquartered in **Hangzhou, China**, SolaX leads the industry by providing integrated solutions in R&D, manufacturing, sales, and services. The company **went public in 2024** on the **Shanghai Stock Exchange** and manufactures photovoltaic energy storage inverters and batteries, **serving customers in over 80 countries worldwide**. With branches in key markets such as the **Netherlands, Germany, the United Kingdom, Australia, Japan, and the United States**, SolaX Power continues to offer clean energy solutions with a vision for a **sustainable future** based on renewable energy.

Founded in 1950, Fronius became a leader in innovation in the **welding industry** and **entered the solar energy sector in 1992**. Today, with 37 subsidiaries and more than 7,000 employees globally, the company offers a wide range of services, from **residential and commercial rooftop systems to ground-mounted solutions**. With its highly efficient photovoltaic inverters, Fronius provides homeowners with **sustainable, reliable, and cost-effective** energy while reducing energy costs through smart technology and promoting an eco-friendly lifestyle. Fronius, particularly with its innovative solutions for residential use, offers users the opportunity to increase their **energy independence** and makes **renewable energy** more accessible.

T Dinamik Enerji is the **most reliable** and **innovative supplier** in the solar photovoltaic systems sector. With its wide **product range**, it offers state-of-the-art photovoltaic panels at **highly competitive prices** to meet the needs of its customers. Through high-volume purchases, T Dinamik Enerji **transfers supply chain advantages** directly to its customers, providing quality products with discounted prices with **immediate stock availability**.

INNOVATIVE

PHONO is a technological company that was established to create and bring pertinent and sustainable solutions to the lives of everyday people via use of benign and environmental friendly materials and technological solutions in the tiers of photovoltaic energy. Grow with us, achieve the impossibility.

We supply **top-quality energy storage solutions** in the industry to our customers seeking **high-capacity, reliable, and durable battery** systems for renewable energy projects and **commercial applications**. With a **strong supply network** and **customer-focused** approach, T Dinamik Enerji aims to be a trusted partner in energy storage systems. The battery systems we provide offer solutions to your energy storage needs with **high efficiency, long service life, and environmentally friendly features**. The products we offer, utilizing the latest battery technologies, contribute to sustainable energy solutions and energy independence.
